

BAU-SYSTEME 92 LTD.

Our family business in 100% Hungarian ownership and established in 1992, has developed into a group of companies with 11 sites throughout the country. We intend to offer our partners the best both in terms of the quality of the products we sell and the level of the services we provide.

We develop our product range based on customer requirements. Our suppliers include the best national and international manufacturing companies. In addition to the materials of modern dry construction projects, our product range extends today to traditional and special products of structural engineering.

Our objective is to be considered a strategic partner by our customers and be the first company to think of when they are looking for a stable, long-term thinking supplier partner to help them achieve their own objectives.

Solution in dry construction.

Gábor Papp
owner, CEO

Bau-Systeme 92 Ltd. turnover data (in thousand HUF)

PREFABRICATED products, systems of structural engineering

As a key player in the national construction industry, we focus on long-term solutions.
We provide a wide range of material requirements for structural engineering projects.

OUR SUPPLIER PARTNERS:

Masonry materials, precast concrete units

Steel products, sandwich panels

Cements

GENERAL construction technology

Our partners can rely on us from the implementation of foundations to finishing contractor's works.
We offer products from the market leaders of general construction technology.

OUR SUPPLIER PARTNERS:

Construction wood, plank, roofing materials, tiles

Mortars, plasters, stoppers, paints

Roof windows

Chimney systems

Paving stones, landscaping materials

THERMAL AND SOUND INSULATION

We offer a wide range of thermal and sound insulation products for the protection and comfort of buildings and people. Depending on function, our clients can choose from a wide range of products and systems of various base materials.

OUR SUPPLIER PARTNERS:

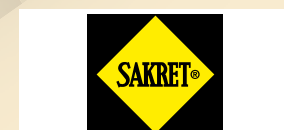

Glass wool, rock wool, wood wool

EPS, XPS, PIR, expanded polystyrene foam

Facade thermal insulation systems

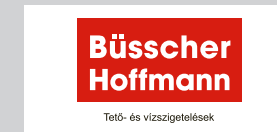

WATERPROOFING

Our product range includes all the products and systems required for waterproofing. We offer safe and durable solutions whether substructure, indoor and outdoor waterproofing or even a complex flat roof bedding sequence.

OUR SUPPLIER PARTNERS:

Bituminous and PVC sheets, sprayable and spreadable indoor and outdoor insulations, and complete flat roof solutions.

Technological foils, geotextiles, drainage and dewatering systems

DRY CONSTRUCTION

We provide a wide range of dry construction products and systems to meet the environmental and technological requirements of the 21st century. In addition to conventional materials, fire protection and acoustic solutions also constitute an integral part of our offer.

OUR SUPPLIER PARTNERS:

Dry construction and suspended ceiling systems, special covering, fire protection and acoustic solutions

Interior doors and windows

Revision openings

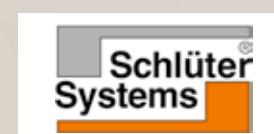

PROFESSIONAL auxiliary materials, tools and accessories

We also provide assistance to our partners in the procurement of tools and other auxiliary products required for the implementation of the project. Our offer includes special auxiliary materials and equipment for the laying and installation of all types of floor and wall covering.

OUR SUPPLIER PARTNERS:

Concrete additives, adhesives, grouts, sealants, silicones and special technical solutions

Mounting elements

Hand tools

SERVICES

We owe our stability primarily to the trust and loyalty of our customers. Our staff consists of specialists trained or experienced in the field of construction industry and helpfully available to our customers. Our aim is to create satisfaction with the services we provide in addition to our product range.

PRIORITY CUSTOMER CARE

Personal contact. More than 1,500 satisfied contracted partners.

COMPETITIVE PRICES

Establishment of conditions required to meet project needs.

PROJECT FINANCING SOLUTIONS

We provide credit margin and deferred payment facilities to ensure that implementation is without hindrance.

COMPREHENSIVE LOGISTIC SOLUTIONS

More than 15,000 organised trips per year. We provide trucks to meet various site specifications.

EXPERT SUPPORT

Our colleagues are at your disposal with up-to-date knowledge regarding the products and services we offer.

CONTINUOUS PROFESSIONAL TRAINING

We offer our partners training possibility to obtain knowledge about a specific product or product group.

MATERIAL REQUIREMENTS CALCULATOR

You can calculate your base material requirements quickly and easily with our calculators for the main product groups.

ONLINE SHOPPING

Our online stores offer our customers a wide and expanding range of building materials. You can place your order 24 hours a day.

LOGISTICS

You can plan your building material supply with us, optimized in space and time. We strive to deliver our products accurately, safely and with maximum efficiency irrespective of their features. We process incoming orders with the maximum care and ensure the most suitable delivery conditions for you..

MORE THAN 15,000 ORGANISED TRIPS PER YEAR

OWN FLEET OF VEHICLES

Load capacities from 1.1 tonnes to 5 tonnes.

MANUFACTURER DELIVERIES

Directly from the manufacturer to the construction site.

PARTNER COMPANIES OF TRANSPORT

Crane trucks, tarpaulin trailers, open trailers.

NATIONAL PACKAGE DELIVERY

Nationwide coverage, door-to-door delivery if needed.

WE PROVIDE A COMPLEX SOLUTION OF DELIVERY

Direct delivery to the work site is also possible if needed. We lift the building material up to 4 storeys high with the use of special vehicles. You do not need to hire a crane truck to move the material. We offer time- and cost-saving solutions.

Our crane truck services:

- craning up to 20 metres
- 8 tonnes useful load
- 26 tonnes total weight
- 9 metres total clearing width
- platform dimensions (l/w/h): 6.6 metres / 2.5 metres / 2.6 metres
- rotatable and tiltable loading fork

Our company always provides you with an experienced driver when renting a vehicle.

Please contact us for more information about renting a crane truck and about renting fees:
