BAU92 SYSTEME

BAU-SYSTEME 92 ZRT.

Founded in 1992 as a family business, Bau-Systeme 92 Zrt. is a Hungarian private company limited by shares that has remained 100% Hungarian-owned ever since. Over the years, the company has grown into a nationwide enterprise with a network of 11 specialist construction trade stores throughout Hungary. We are committed to providing our partners with the very best — both in terms of the quality of the products we distribute and the standard of the services we offer.

Our product portfolio is shaped by customer needs. Our suppliers include leading Hungarian and international manufacturers, enabling us to offer a comprehensive range of solutions. Today, our selection extends beyond materials for modern dry construction applications to include traditional and specialised structural construction products as well.

Our goal is to be regarded by our customers as a strategic partner — the first company they think of when looking for a stable, reliable supplier with a long-term approach to supporting their own business objectives.

Building Solutions for Dry Construction – BAU-SYSTEME 92 ZRT.

Gábor Papp
owner, CEO
